

Pre-Franchise Review Process

The Pre-Franchise Business & Financial Review will help you identify

- How much it will cost to set up the business
- What it will cost to run the business day-to-day
- Sales required to cover projected costs, owner’s wages and loan repayments
- Financial risks and responses

We will prepare a report for you. It will be based on information in the Disclosure Document, your research and our understanding of the business. It will include:

- Summary of key points
- Budget for sales and expenses
- Review of risks, and points for discussion with the franchisor

If needed, we can also help you prepare a detailed monthly budget and cash flow.

“Entering into a franchise is a serious undertaking. A franchise is a business, and, like any business, the franchisee (or franchisor) could fail during the franchise term. This could have consequences for the franchisee.”

You should get independent legal, accounting and business advice before signing the franchise agreement.”
